- A sample of what might be long term effects.
- Different phases
- More of same w/ aerosol incoming info
- No more information is necessary
- None we are in healthcare but think this info is great

Anonymous Survey Questions

My family has a plan to make them less vulnerable to epidemics in the future

Source: Coronavirus Care Community of Practice Webinar - Creating Your Family Safety Plan A Survive & Thrive Guide – October 01, 2020

What information would help you become more resilient in the future?

- Any information on what to expect.
- More of the same education

Anonymous Survey Questions

Changing behaviors of teens and young adults is key to beating the Coronavirus Crisis.

Source: Coronavirus Care Community of Practice Webinar - Creating Your Family Safety Plan A Survive & Thrive Guide – October 01, 2020

My suggestions to help making teens and young adults leaders in becoming part of the solution are:

- **Be open with the teens specially COVID information**
- **Educate the teenagers and young people more public announcements**
- **Have the boy scouts be teachers.**
- **Peer education...**
- **Role model for them; education; keeping it "cool"**
